

Eurocopter today, the World's Number One Helicopter Manufacturer!

We're looking for a highly talented CONTRACT AIRCRAFT MAINTENANCE ENGINEER, so if you or someone you know is qualified then we want to hear from you!

Reporting to the Service Centre Supervisor, the Aircraft Maintenance Engineer (AME) will be responsible for working on the conversion of AS 350 aircraft, completing inspections and rebuilding of aircraft. The approximate contract timeframe is 2 to 6 months.

Your responsibilities...

- Complete major inspections in accordance with aircraft documentation and Transportation Canada requirements as necessary to return aircraft to full service. This may include:
 - AS350 upgrades D to B / BA / B2 mechanical modifications
 - Light sheet metal as required
 - Tail rotor / short shaft balancing
 - Flight test / main rotor track and balancing
 - Cabin anti vibration tuning
 - Fault finding and snag rectification
 - Engine removal / tear down with buildup and installation
 - Severe incident rebuilds
 - Ground runs and flight test

If your track record shows you have ...

- Three to five years experience as a licensed AME
- Specialized tooling experience for various maintenance tasks
- Experience with scheduled and unscheduled maintenance inspections. (12yr, Hard landing etc.)
- Previous experience on Eurocopter products (specifically AS 350)
- Customer centric philosophy (internal and external)
- Experience in a cross functional manufacturing environment

And if you have...

- AME diploma or certifications would be an asset
- Excellent problem solving, organizational and planning abilities
- Excellent oral and written communication and listening skills
- Self-motivated, ability to work with minimal supervision as well as part of a team

... then we want to hear from you!

To apply for this position, please send an up-to-date resume and salary expectations to HR@eurocopter.ca
