

Eurocopter today, the World's Number One Helicopter Manufacturer!

Established in 1992, the Eurocopter Group is a Division of EADS, a world leader in aerospace, defense and related services. With approximately 20,000 employees in 30 subsidiaries on five continents, customers can rely on Eurocopter to ensure all activities of support, service and training are provided with best in class service.

Eurocopter products account for 33 percent of the total world helicopter fleet, a success based on its comprehensive range of civil and military helicopters.

We're different! As an employee of ECL, you will have the opportunity to showcase your talents and make meaningful contributions to the exciting field of Aerospace. ECL employees take pride in their work and look forward to the challenges this industry brings.

Eurocopter Canada Limited offers personal development for our employees with an active career, responsibility, and opportunity for international mobility.

Change your life – Join our team!

We're looking for a highly talented Design Engineer to join our team so if you or someone you know is qualified then we want to hear from you!

Reporting the Manager, Engineering, the Design Engineer will be the Project Leader providing guidance and technical support to internal stakeholders (Production, Planning, Program Management, Quality Assurance) during the development of ECL initiatives. A collaborative and collegial approach is a must!

If your track record shows you can ...

- Conceptualize and detail the design of components / optional equipment (mainly structural - both metallic and composite)
- Prepare manufacturing / assembly / installation drawings
- Check design and technical publications to ensure accuracy
- Monitor and maintain project budgets
- Evaluate, improve and document existing Engineering procedures
- Lead progress meetings providing updates and directing next steps
- Utilize a global solutions approach to problem solving

And if you have...

- University degree in Mechanical Engineering with a preferred emphasis on Aeronautics
- 5 - 10 years Design and Project Management experience
- Advanced skills in CATIA or a similar CAD system
- Working knowledge of the full Microsoft Office Suite (Word, Access, Excel, PowerPoint, Project)
- Working knowledge of FiberSim an asset

With the additional assets of...

- Professional Engineer's licence an asset
- Effective written and oral communication skills
- Ability to multi-task several projects
- Innovative and creative
- Flexibility

... then we want to hear from you!

To apply to this position, please provide an updated resume and a brief letter identifying how you can quickly and successfully become a productive key team member, along with your interest in this position to Human Resources to HR@eurocopter.ca.
