## OVERVIEW

Proven reliability - a helicopter you can count on

## The EC135

- State-of-the-art glass cockpit
- Unique bearingless Main Rotor and Fenestron Systems offer outstanding manoeuvrability, enhanced safety for passengers and ground personnel and reduced maintenance
- Low noise signature on flight
- High degree of crashworthiness provided by the crash resistant fuel systems, high energy absorbing crew and passenger seats, fuselage and skid-type landing gear
- Designed for multimission usage thanks to its unobstructed interior and flat floor cabin
- Large sliding doors enable passengers to board and exit easily
- Rear clamshell doors provide quick, comfortable and safe straight on loading of baggage

Lands on the most difficult spots and is accessible from all sides with rotors turn

ing

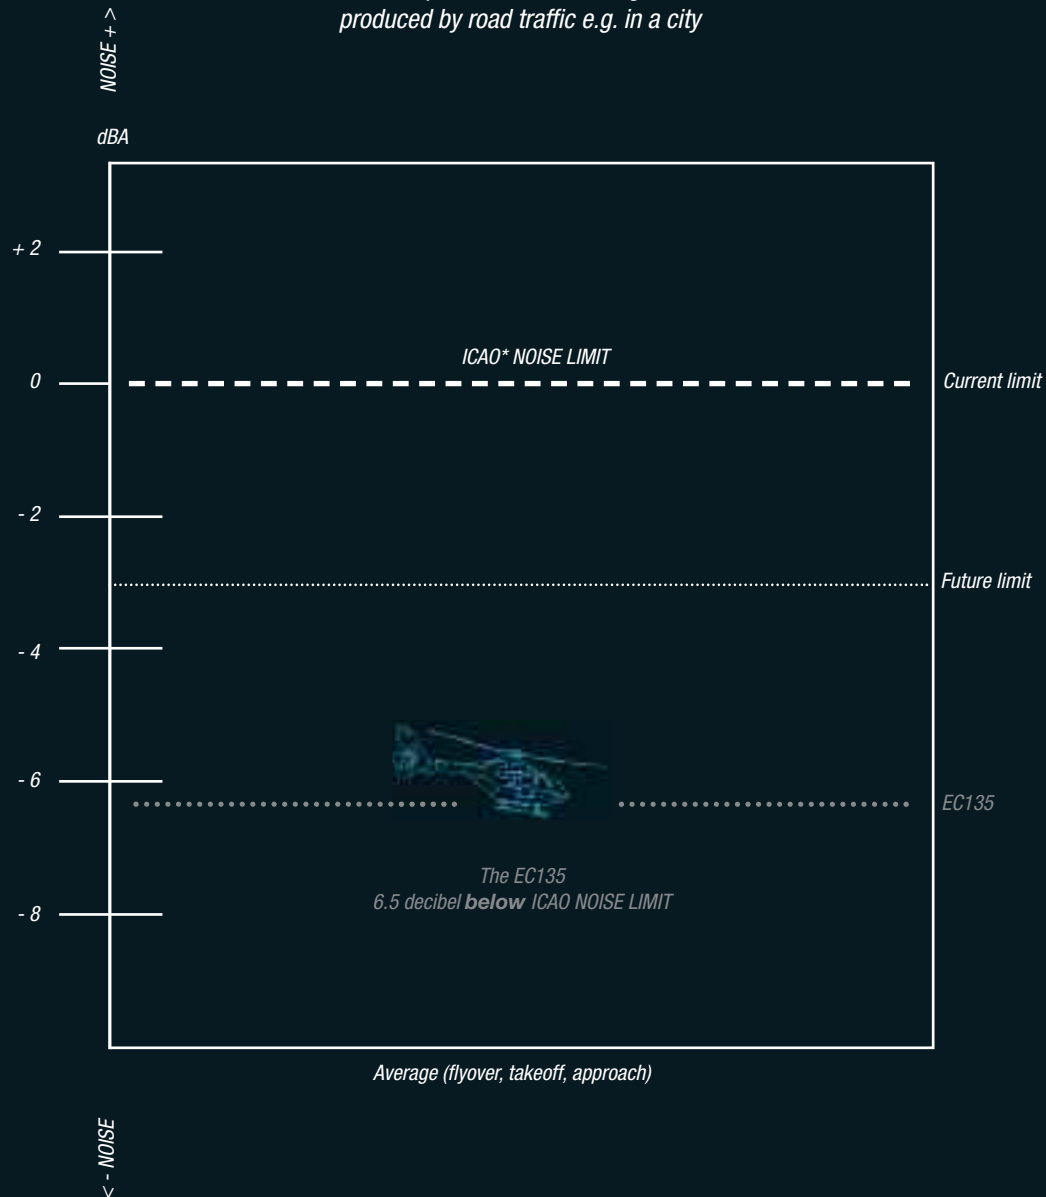

# Welcome to the quietest of the most powerful helicopters in its class

The EC135 is quieter than the background noise produced by road traffic e.g. in a city

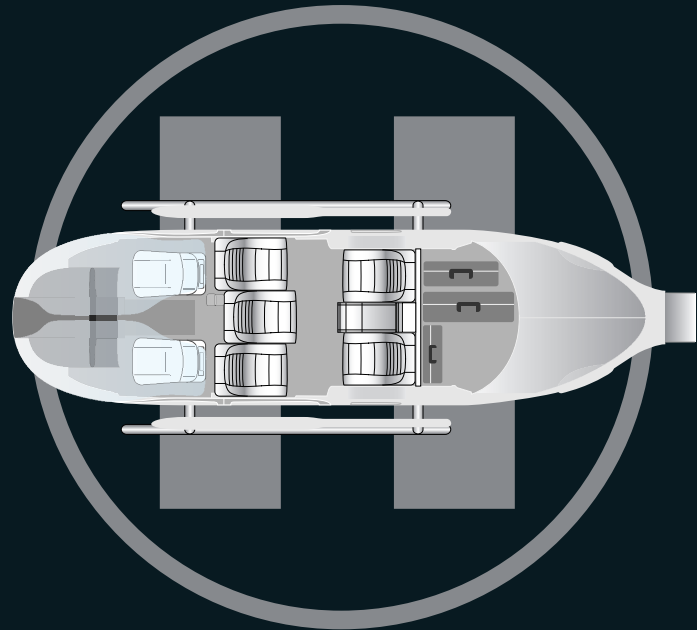

The best view

# CORPORATE

The Corporate interior offers comfortable, classic surroundings. Genuine materials such as real wood and leather combined with highly accurate production methods ensure a lightweight interior that maximizes your helicopter range.

The elegant interior design with stylish seats and cabinets creates an exclusive ambience.

It can accommodate up to six passengers plus a pilot. An optional version comes in a seven-passenger configuration plus pilot. In all configurations, passengers can seat comfortably with ample legroom space.

Take a seat in the well-designed Corporate solution for maximum comfort

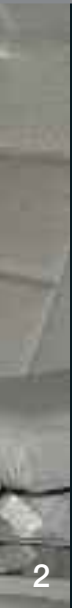

# Taking care of details is the priority

### CORPORATE - basics and mandatory

- 1 - Rear cabinet with armrest
- 2 - Armrest in the window niche
- 3 - BOSE Active Noise Reduction (ANR) headsets
- 4 - Map case in sliding door
- 5 - Pax seats with buckles and 3-point belts in Corporate finish (leather color harmonised)
- 6 - Personal service units (PSU) in Corporate finish
- 7 - Retractable coat hooks in rear cabin
- 8 - Cockpit, cabin and cargo compartment carpet

Tailored to your needs

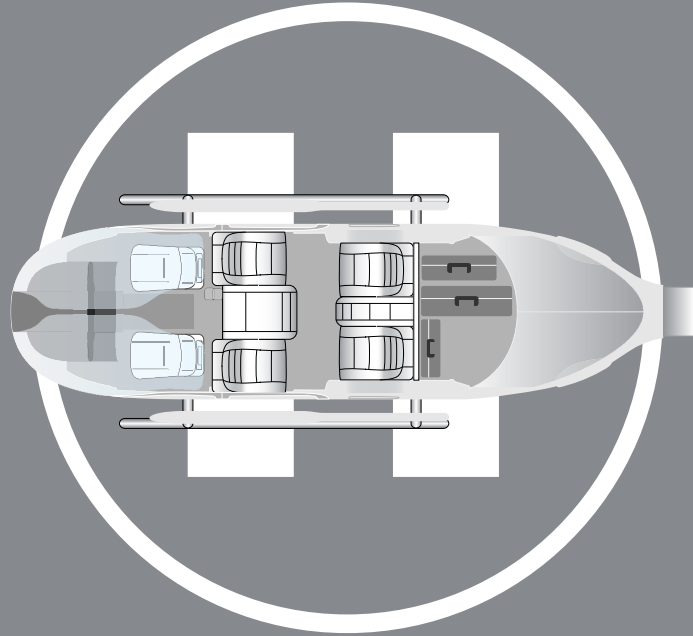

#### CORPORATE - options

- 1 - Metal placards
- 2 - Front cabinet instead of front middle passenger seat
- 3 - Cooling box in the front or rear cabinet
- 4 - Iridium satellite telephone with VIP SAT-COM private mode

Customized solutions on request

# EXECUTIVE

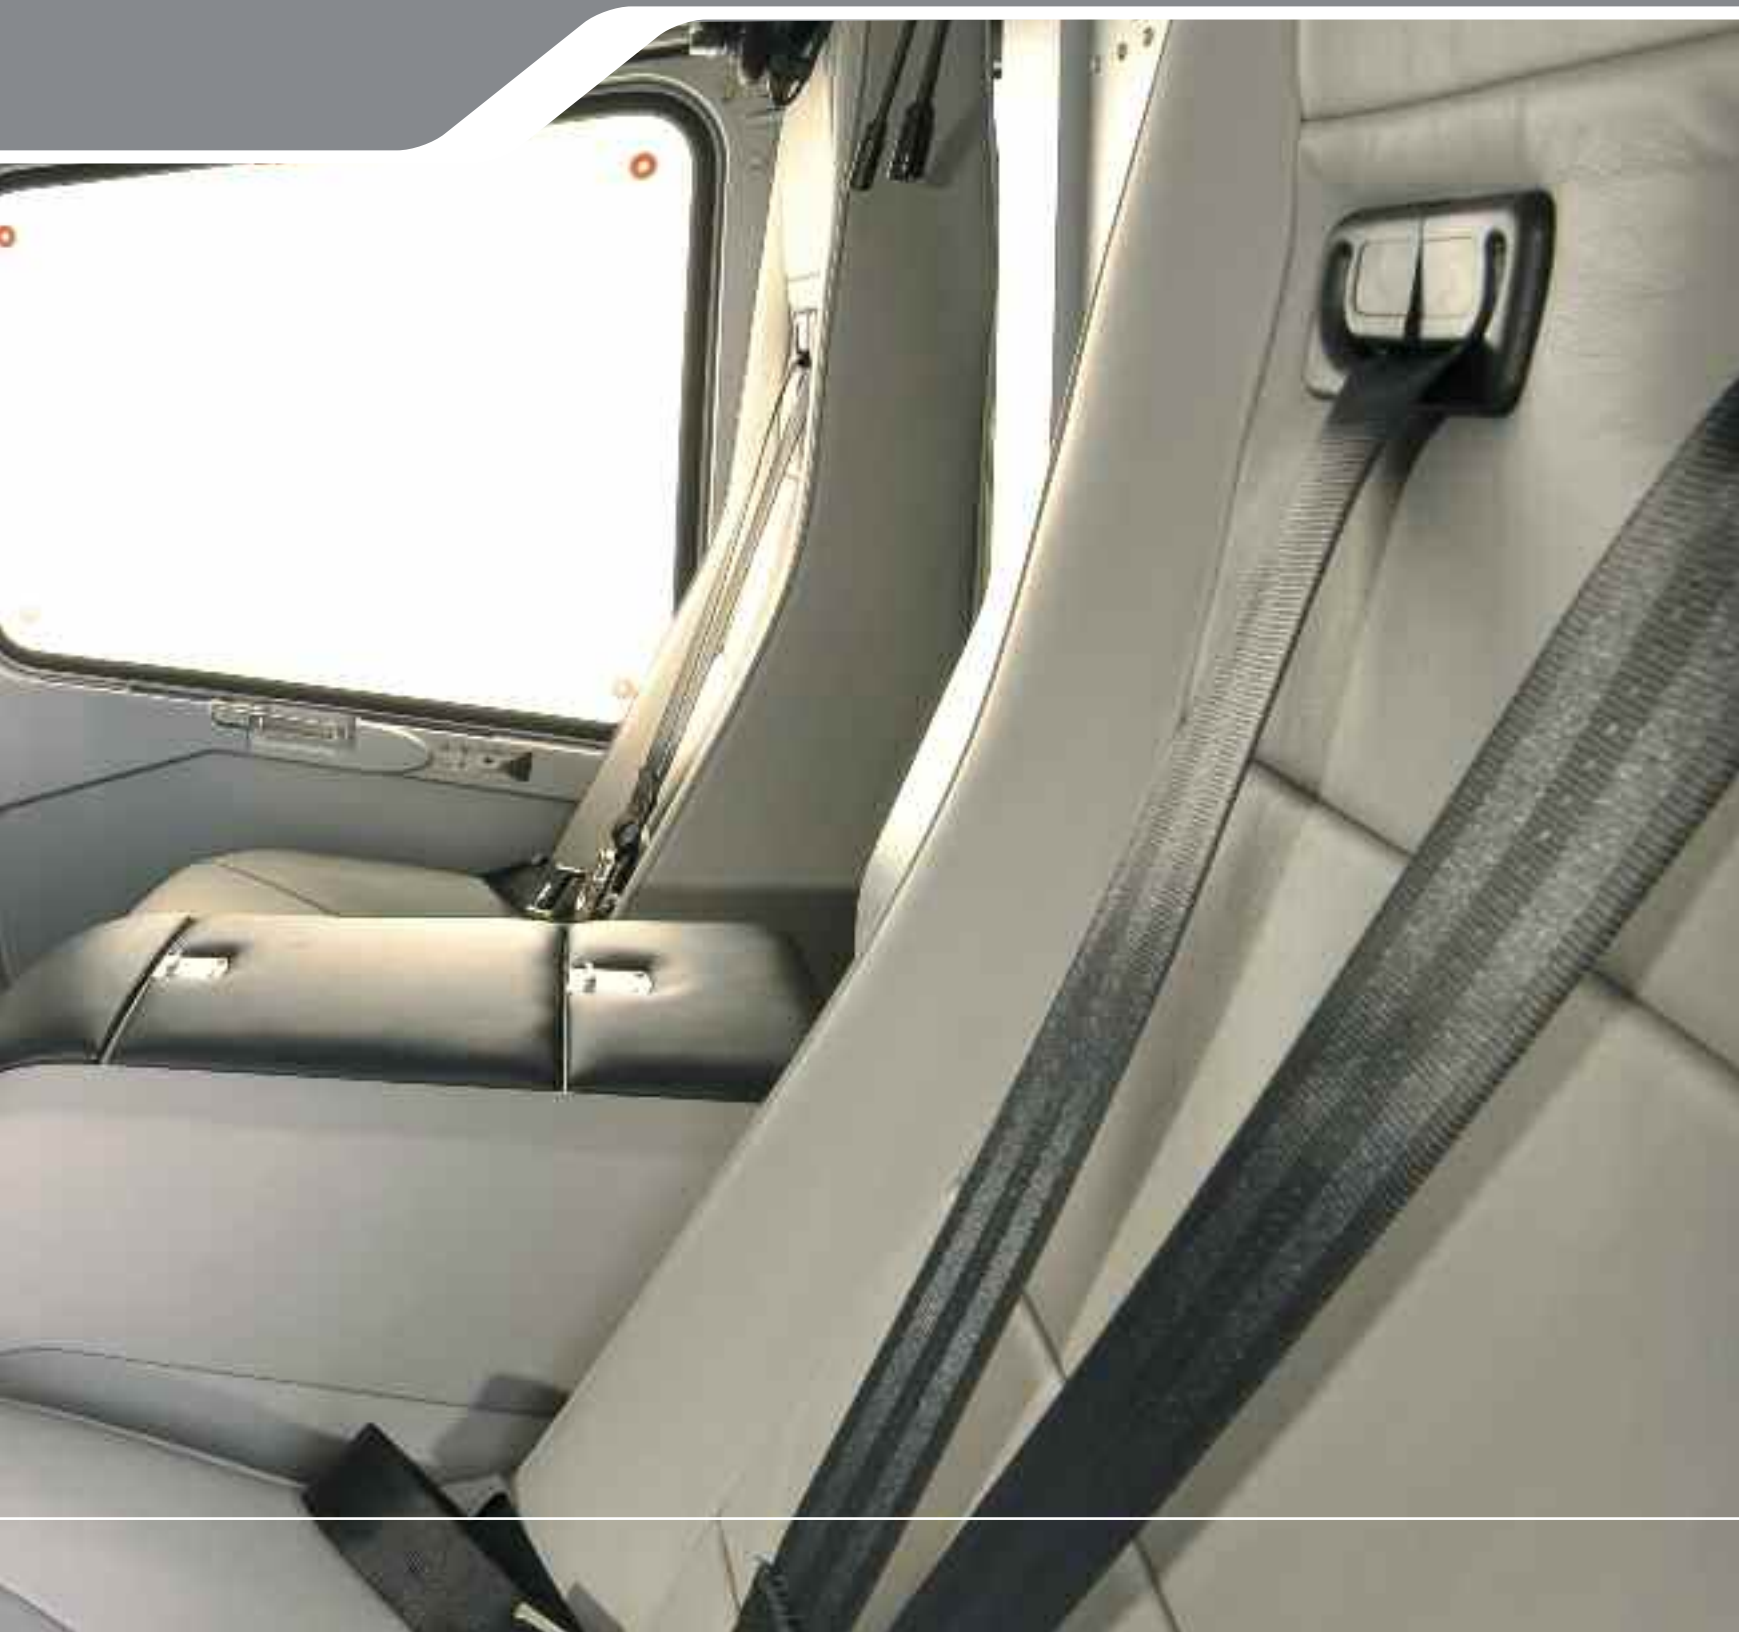

The Executive configuration provides passengers with an outstanding work environment: there is ample room for up to five people in the cabin.

High-tech materials such as carbon fiber and lightweight aluminium alloy with the best and most precise manufacturing technologies give a stylish, modern appearance.

Ergonomically-designed cabinets offer a well-balanced combination of space and elegance.

Enjoy high-end helicopter flying in an EXECUTIVE environment

# Examples of best materials and outstanding craftsmanship
