Corporate Interiors

6-seat configuration

9-seat configuration

The 6-seat VIP configuration, equipped with 20-inch armchairs and a galley, accommodates up to 6 passengers in great comfort.

The passenger cabin is fitted with enhanced sound proofing. In addition, a partition with a sliding window isolates the cabin from the cockpit. A 20-inch armchair is installed on each side of the galley, which is fitted with a Peltier cooling compartment and stowage. One divan can comfortably accommodate 2 to 4 passengers.

Configuration

The cabin offers
a complete set of equipment:

- The choice of either carbon or veneer, plus either leather or fabric upholstery, according to the customer's preference
- Hand-tufted floor carpeting
- An audio installation
- Active noise-cancelling headset connections
- A phone handset

- Ledge amenities and stowage (i.e. drink holders, ashtrays, trash can, door compartments)
- Drawers under the divan
- Individual ceiling ventilation outlets and lights
- Air conditioning controls: one in the cabin and one in the cockpit
 - Two 12 V/10 Amp outlets

Optional "VIP Upgrade" equipment allows customers to select highly sophisticated upholstery for a uniquely customized interior.

The 6-seat VIP configuration with 22-inch armchairs can accommodate up to 6 passengers in great comfort. The cabin is fitted with enhanced sound proofing. In addition, a partition with a sliding window isolates the cabin from the cockpit. Two 22-inch armchairs are installed in the rear part of the cabin. One divan can comfortably accommodate 2 to 4 passengers.

Configuration

The cabin offers
a complete set of equipment:

- Veneer plus the choice of either leather or fabric upholstery
- Hand-tufted floor carpeting
- An audio installation
- Active noise-cancelling headset connections
- A phone handset

- Ledge amenities and stowage (i.e. drink holders, ashtrays, trash can, door compartments)
- Drawers under the divan
- Individual ceiling ventilation outlets and lights
- Air conditioning controls: one in the cabin and one in the cockpit
 - Two 12 V/10 Amp outlets

Optional "VVIP Upgrade" equipment allows customers to select highly sophisticated upholstery for a uniquely customized interior.

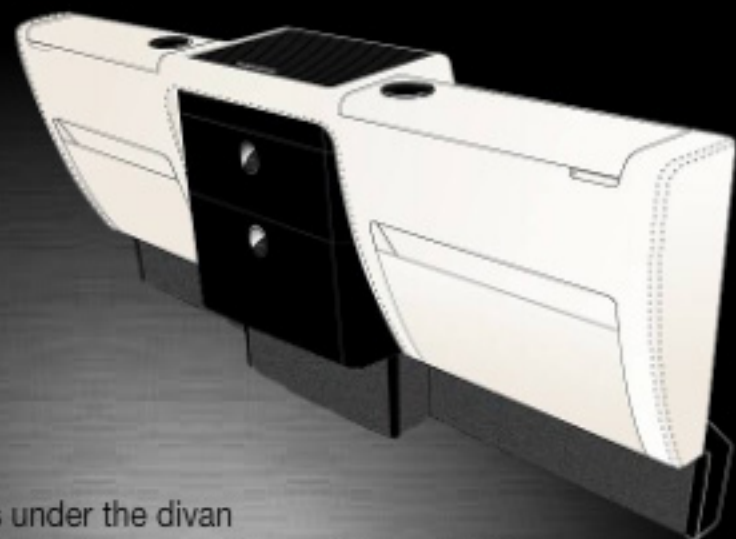

The 6-seat VIP configuration, with one divan and two armchairs, can accommodate up to 6 passengers in great comfort. The cabin is fitted with enhanced sound proofing. One divan, installed in the rear part of the cabin, can comfortably accommodate 2 to 4 passengers. Two pivoting armchairs are installed in the front part of the cabin. One mid-height cross cabin galley separates the cabin from the cockpit, and is fitted with two drawers, a laptop compartment, two magazine holders and two drink holders.

Configuration

The cabin offers
a complete set of equipment:

- Veneer plus the choice of either leather or fabric upholstery
- Hand-tufted floor carpeting
- An audio installation
- Active noise-cancelling headset connections
- Ledge amenities and stowage (i.e. drink holders, ashtrays, trash can, door compartments)

- Drawers under the divan
- Individual ceiling ventilation outlets and lights
- Air conditioning controls: one in the cabin and one in the cockpit
- Two 12 V/10 Amp outlets

Optional "VVIP Upgrade" equipment allows customers to select highly sophisticated upholstery for a uniquely customized interior.

The 7-seat VIP configuration accommodates up to 7 passengers in great comfort.

The cabin is fitted with specific enhanced sound proofing.

One divan, installed in the rear part of the cabin, can comfortably accommodate 2 to 4 passengers.

It is possible to install up to three seats in the front part of the cabin, in either of the following configurations: two seats facing forward, or three seats facing the rear.

Configuration

The cabin offers
a complete set of equipment:

- The choice of either carbon or veneer, plus either leather or fabric upholstery, according to the customer's preference
- Hand-tufted floor carpeting
- An audio installation
- Active noise-cancelling headset connections
