

Eurocopter today, the World's Number One Helicopter Manufacturer!

Established in 1992, the Eurocopter Group is a Division of EADS, a world leader in aerospace, defense and related services. With approximately 20,000 employees in 30 subsidiaries on five continents, customers can rely on Eurocopter to ensure all activities of support, service and training are provided with best in class service.

Eurocopter products account for 33 percent of the total world helicopter fleet, a success based on its comprehensive range of civil and military helicopters.

We're different! As an employee of Eurocopter Canada Limited (ECL), you will have the opportunity to showcase your talents and make meaningful contributions to the exciting field of Aerospace. ECL employees take pride in their work and look forward to the challenges this industry brings.

ECL offers personal development for our employees with an active career, responsibility, and opportunity for international mobility.

Change your life – Don't miss out on this great opportunity!

We're looking for a **Quality Assurance Inspector, Composite** to join our team so if you or someone you know is qualified then we want to hear from you!

As member of the QA Team, reporting to the QA Supervisor, Composite, you will be a key contributor, taking quality and the quality control processes and activities to the next level, working collaboratively with our QA and Composite Production teams!

If your track record shows you can ...

- Provide regular dimensional inspection of composite and sheet metal parts
- Work with drawings, documents, process specifications, quality control requirements and procedures, perform any inspection of parts and assemblies including processes and materials
- Initiate and document any non-conforming material, hardware, tools, parts, assemblies according to specifications, processes and procedures.
- Perform in-process inspections (material bagging, trimming ,painting)
- Prepare and maintain effective documentation management and control for all quality reporting
- Work collaboratively and effectively with all team members in Quality and Composite to reach specified standards
- Use and interpret drawings, inspection manuals and specifications; use precision measuring instruments, specialized inspection machines, tools and equipment
- Work with ISO 9001 processes and in accordance with Ministry of Transportation requirements

And if you have...

- 5+ years previous work experience minimum, specifically with a Quality Assurance System (ISO 9001, AS 9100)
- Ability to work effectively under demanding delivery schedules

- Professional working relationships with internal and external sources, including regulatory and quality certified agencies
- Excellent verbal and written communication skills and the ability to prepare reports and business correspondence
- Strong problem solving, decision making, job task planning and organizational skills
- High technical aptitude

Other...

- You will be required to work an alternating day/evening shift schedule.

... then we want to hear from you!

To apply to this position, please provide an updated resume and a brief letter identifying how you can quickly and successfully become a productive key team member, along with your interest in this position to HR@eurocopter.ca.
