Change your life – Join our team!

We're looking for a highly talented INDUSTRIAL ENGINEERING TECHNICIAN, so if you or someone you know is qualified then we want to hear from you!

Reporting to the Industrial Engineer, the Industrial Engineering Technician will be responsible for observing and assessing work procedures, recording information for process and procedure guidelines. The incumbent will also provide recommendations to the Industrial Engineer for efficiency in work flow.

Your responsibilities...

- Observing composite production work and recording process and procedures
- Compile and evaluate statistical data to determine and maintain quality and reliability of products
- Maintaining current work instructions for process and procedure instructions
- Studying time, motion, methods, and speed involved in production to establish standard production rate and improve efficiency
- Interpreting drawings/ diagrams and conferring with relevant stakeholders
- Recommending modifications to existing quality or production standards
- Recommend revision to methods of operation, material handling, equipment layout, or other changes

If your track record shows you have ...

- Knowledge of production processes, quality control, costs, and other techniques for maximizing the effective manufacturing of finished products
- Understanding of consistency in production and the need for updated, accurate instructions
- Proven knowledge to applying principles, techniques, procedures and equipment to the design and production of composite products
- Mechanical aptitude for tools used in production process and how they contribute to the work process
- Proficiency in Microsoft Office Suite (AutoCad/CATIA experience an asset)
- Customer centric philosophy (internal and external)
- Experience in a cross functional manufacturing environment

And if you have...

- Diploma in Industrial Engineering or equivalent from a recognized post-secondary institution
- Analytical, critical thinking and problem solving abilities
- Ability to record and organize information in an ordered, logical sequence
- Excellent oral and written communication and listening skills
- Self-motivated, ability to work with minimal supervision

... then we want to hear from you!

To apply for this position, please send an up-to-date resume and cover letter to HR@eurocopter.ca by October 22, 2012

About us...

Established in 1992, the Eurocopter Group is a Division of EADS, a world leader in aerospace, defense and related services. With approximately 20,000 employees in 30 subsidiaries on five continents, customers can rely on Eurocopter to ensure all activities of support, service and training are provided with best in class service.

Eurocopter products account for 33 percent of the total world helicopter fleet, a success based on its comprehensive range of civil and military helicopters.

In 2011, Eurocopter confirmed its position as the world's number one helicopter manufacturer with a turnover of 5.4 billion Euros, orders for 457 new helicopters and a 43 percent market share in the civil and parapublic sectors.

Eurocopter Canada Limited offers personal development for our employees with an active career, responsibility, and opportunity for international mobility.

As a best in class employer, you'll enjoy competitive salary, benefits, vacation time and work environment.
