

## Change your life – join our team!

Established in 1992 the Eurocopter Group is a Division of EADS, a world leader in aerospace, defense and related services. With approximately 20,000 employees in 30 subsidiaries on five continents, customers can rely on Eurocopter to ensure all activities of support, service and training. Eurocopter products account for 44 percent of the total world helicopter fleet, a success based on its comprehensive range of civil and military helicopters.

With three locations in Canada Eurocopter Canada Limited (ECL) is currently providing full customer service for over 600 Eurocopter helicopters in Canada. Customers are supported by a dynamic and professional team who cover the full range of industrial aeronautical functions and specialties.

ECL has an internship opening from September, 2013 in FORT ERIE, ON, for ...

### Engineering Intern

Over the course of six to eight months, complete one or more projects related to the development of aircraft optional equipment and/or advanced aircraft manufacturing processes. Development may include aspects of design, analysis and/or testing.

#### If your track record shows you can ...

- Develop project tasks, requirements and objectives through independent research and consultation with experts in the department, forming the basis of work for the duration of the internship.
- Generate engineering documentation required to support project development. These may include specifications, statements of work, engineering designs and drawings or test plans and test reports.
- Coordinate activities with stakeholders to ensure efficient progress and completion of project(s).

#### And if you have...

- A Bachelor of Science degree in aerospace or mechanical engineering,
- Strong standard computer skills,
- Solid modeling and/or numerical finite element modeling (CATIA) an asset,
- Accurate work, high level communicator, high level of initiative,
- Ability to work collaboratively in a team environment,

#### ... then we want to hear from you!
