

Eurocopter today, the World's Number One Helicopter Manufacturer!

We're different! As an employee of ECL, you will have the opportunity to showcase your talents and make meaningful contributions to the exciting field of Aerospace. ECL employees take pride in their work and look forward to the challenges this industry brings.

Eurocopter Canada Limited offers personal development for our employees with an active career, responsibility, and opportunity for international mobility.

Change your life – Join our team!

We're looking for a highly talented Structural/Mechanical Design Engineer to join our team so if you or someone you know is qualified then we want to hear from you!

Reporting the Manager, Engineering, the Structural / Mechanical Design Engineer is one of ECL's senior design experts for aircraft structures and structural modifications. This engineer's expertise is relied upon for conceiving new components and installations, of both metallic and composite construction, and also for complete detail design definitions of new products on CATIA V5. A collegial and collaborative approach is a must!

If your track record shows you can ...

- Conceptualize and detail the design of components / optional equipment (mainly structural - both metallic and composite)
- Prepare manufacturing / assembly / installation drawings
- Monitor and maintain project budgets
- Evaluate, improve and document existing Engineering procedures
- Utilize a global solutions approach to problem solving
- Engineer disposition of non-conformances
- Provide technical guidance to other design personnel and management on feasibility of proposed product definitions, in support of kit sales and aircraft completions
- Detail check drawing packages for design integrity
- Detail check technical publications (aircraft manuals) associated with new designs

And if you have...

- University degree in Mechanical Engineering with a preferred emphasis on Aeronautics
- 5 - 10 years design experience

- Engineering Project Leader experience
- Advanced skills in CATIA V5 (10,000 hours preferred)
- Working knowledge of the full Microsoft Office Suite (Word, Access, Excel, PowerPoint, Project)

With the additional assets of...

- Professional Engineer's licence an asset
- Effective written and oral communication skills
- Ability to multi-task several projects
- Innovative and creative
- Flexibility

... then we want to hear from you!

To apply to this position, please provide an updated resume and a brief letter identifying how you can quickly and successfully become a productive key team member, along with your interest in this position to Human Resources to HR@eurocopter.ca.
