

# Full Composite Solutions

High Performance Manufacturing  
AIRBUS HELICOPTERS CANADA

## Making Missions Possible

**At the core of our composite solutions:** We specialize in design and production of high performance composite solutions for industries where consistency and high quality are mission critical. With more than 25 years experience, our highly skilled team has built a reputation for delivering on time, on cost and on quality

The vast capabilities of Airbus Helicopters Canada composite manufacturing facility extend to many other industries

**AIRBUS**

## Our strength is our people

Our team of technicians are highly trained and specialized in various composite operations

Composite Curing through autoclaves, ovens & platen press

In-house Engineering and Design with reverse engineering capabilities

Computerized ply cutting for optimized material yields

Laser system for ply placement accuracy

For more information regarding Airbus Helicopters Canada Composite capabilities please contact
